## Overview

How do you manage a company? How do you lead a team? How do you encourage innovation? Moreover, how do you control processes in the company? Management skills are the key to the success of modern companies. The BSP is a university for management and law - the Business Administration Master is our flagship in management. Here you will receive cross-industry and cross-departmental training with state-of-the-art management expertise.

### Practice, Practice, Practice

You study in a practical way and get to know companies first-hand during your studies. In a separate module, you will visit different companies and compare their business models. This is how theory and practice complement each other in the Business Administration Master.

### Digital in all Modules

Digitization is a topic in all modules of the Business Administration Master. The Software Engineering module provides a basic understanding of programming and the importance of software for companies.

### Optional Stay Abroad

In the 3rd semester of the Business Administration Master, there is the possibility to integrate a stay abroad. For this, you choose from more than 50 partner universities worldwide, or you attend another university of your choice.

### Double Degree Option

You have the opportunity to obtain a double degree in cooperation with our renowned partner university Solbridge International School of Business in South Korea. Students receive two academic master's degrees through this program: one at BSP and one at Solbridge International School of Business, South Korea.

### Start-up Workshop

The Start-up Workshop provides the necessary knowledge for self-employment. From idea generation to financing and legal frameworks to product and customer management, you will learn about all the necessary decision-making areas.

### Soft Skills Training

Negotiation, presentation, conflict resolution, and networking - the daily work routine require different soft skills. A training course teaches these skills based on exercises and case studies.

### Business Game: Real Decisions in a Virtual Company

Within the framework of a business game, you control your own company. In this way, you learn about the complex interrelationships in a company.

### Business Psychology: Business is more than Numbers

Economy is made by people. Moods, personal experiences or patterns of action influence decisions. Knowing psychological processes makes it easier to understand companies.

### Ethics: Corporate Values are Not Just on the Balance Sheet

What values should a manager follow? How is a decision made when these values conflict with economic goals? Management needs a foundation of values. We provide orientation for your ethical compass.

## Content

- 100% state-of-the-art knowledge management
- All the skills you need for a successful management career

## About us

BSP Business & Law School is a private, state-recognized university with a campus in Berlin-Steglitz and a campus in Hamburg's HafenCity. The range of courses includes 20 degree programs at three university of applied sciences faculties and one university faculty. All degree programs at the BSP are state-recognized and professionally accredited or are currently in the accreditation process.

The study programs offered by the Faculty of Business & Management (FH) are built on two professional pillars and include the fields of business administration, (international) management and communication on the one hand and business psychology on the other. Students of the faculty receive a strongly application-oriented and interdisciplinary education in all subjects. In addition, the Faculty of Creative Business (FH), with courses such as Fashion Marketing, Fashion Journalism and Costume & Make-up Design, combines business know-how with the innovative processes of the creative industries. The Faculty of Applied Sport Sciences and Personality is dedicated to the cross-sectional science of sport and combines the fields of management, training science, sports psychology, law and communication in its range of courses to create unique curricula with a focus on popular and competitive sports. All of the BSP's university faculties offer both bachelor's and master's degree programs. At the university faculty of law, there is the possibility to study law with two degrees: The innovative educational concept aims at the first state examination in law (Staatsexamen), but a Bachelor of Laws (LL.B.) can be obtained after only six semesters.

Studying outside the box: Studies at the BSP are characterized by strong synergies and genuine interdisciplinarity. There is regular exchange between the faculties and students and teachers from all disciplines work together on joint projects.
